ASHRAE membership is open to anyone associated with heating, ventilation, air conditioning or refrigeration. With more than 50,000 members from more than 100 nations, ASHRAE is a diverse organization representing HVAC&R professionals around the world.

Who is a member?

Members are represented by students, consulting engineers, mechanical contractors, building owners, employees of manufacturing companies, educational institutions, research organizations, government, architects, or anyone concerned with HVAC&R for the built environment.

What Member Type is Right for You?

ASHRAE has three grades of membership awarded to applicants based on their experience and participation in the industry.

Member grade and associate grade offer the same member benefits.

Member (\$185 US)

Available to anyone with 12 years or more ASHRAE-approved experience in the HVAC&R industry.

Associate Member (\$185 US)

Available to anyone with less than 12 years of ASHRAE-approved experience in the HVAC&R industry.

Affiliate Member (\$50 US/first year, \$70 US/second year, \$90 US/third year)

Affiliate grade is perfect for individuals who are new to ASHRAE (not previous Student or Associate members) who are age 30 or younger. It provides a great beginning for young professionals who wish to become involved in ASHRAE. Affiliate grade does not include the annual member benefit of the ASHRAE Handbook.
